

Laboratory Phase I – Learning and Performing Isolated Skills	Minimum Number of Times Competency Demonstrated Successfully	Minimum Number Signed Off by Licensed Evaluator
Assessment Skills		
Scene Size-Up and Primary Assessment	2	1
Assessment of Vital Signs	2	1
Secondary Assessment and Reassessment-Medical	2	1
Secondary Assessment and Reassessment-Trauma	2	1
Lifting and Moving (Devices)	2	1
Communications	2	1
Airway		
NPA/OPA	2	1
Suctioning (Oral, Stoma, Tracheostomy)	2	1
CPAP	2	1
O2 Administration	2	1
BVM Ventilations (Adult, Pediatric)	2	1
Trauma		
Advanced Spinal Assessment/Spinal Motion Restriction	2	1
Joint Immobilization	2	1
Long Bone Immobilization	2	1
Hemorrhage Control	2	1
Chest Injury Management	2	1
Traction Splinting	2	1
Pelvic Immobilizer	2	1
Medical		
IN Medication Administration	2	1
Inhaled Medications	2	1
IM Medication Administrations	2	1
Auto-Injector Use	2	1
Oral Medication Administrations	2	1
Sublingual Medication Administrations	2	1
Glucometer	2	1
12-Lead Acquisition	2	1
Cardiac		
Cardiac Arrest Management (Adult, Pedi)	2	1
OB/Neonatal		
Normal Delivery and Newborn Care	2	1

Laboratory Phase II – The scaffolding and application of isolated skills into formative scenarios	Minimum Number of Times Competency Demonstrated Successfully	Minimum Number Signed Off by Licensed Evaluator
Airway Management Evolution	2	3 (1 Adult, 1 Pedi)
Trauma Physical Assessment/Management	2	2
Medical Physical Assessment/Management	2	2
OB/Neonate Care and Management Pregnancy Complications, Abnormal Delivery, Neonatal Resuscitation	2	2
Cardiac Arrest Management – High Performance/Team Resuscitation	N/A	3 (1 Adult, 1 Pedi)
Medication Administration	N/A	3

Laboratory Phase III – Applying skills and critical thinking into comprehensive summative scenarios (the What, When, How, and Why)	Minimum Number Signed Off by Licensed Evaluator
Team Member	5
Team Leader	5 (2 Medical, 2 Trauma, 1 Pedi)

Students will demonstrate competencies with Integrated scenarios as a team. The student will be assessed on:

- 1) Leadership and scene management
- 2) Patient assessment
- 3) Patient management
- 4) Interpersonal relations
- 5) Integration of all elements, patient report and handoff
